

Financial Literacy

Mostly what I want you to do in the next 6 weeks is the 9 sections of EverFi financial literacy.

Here is what I want you to do

If you can get in today and log in to everfi and google classroom that would be job one. Help each other I will make that 2, 5 point assignments.

CBA turned in as a doc shared with me bradd@willapavalley.org by Thursday

Complete Everfi financial Literacy all questions all screens all tests to a passing level.

Through google classroom: Financial Literacy code xmdip5e

I may assign finding a job and finding out how much rent, electricity, cable would cost you in the city you choose. Wait for that assignment

Hopefully on your school email you should have received some sort of confirmation.

Here is a copy of the note I sent.

Financial Literacy students and parents,
I have finished setting up a financial literacy class on line. I will be talking about it in class tomorrow.

If anyone wants to try it out for me.

I believe this is how you would navigate it.

If you go to everfi financial literacy

go to student teacher login

your user name should be your first initial and your last name 76

i.e. bdonovan76

The course code is 37c9731a

the password is finlit20 as in financial literacy 20.... shortened to finlit20

The email address I used was your [willapavalley.org](mailto:your.willapavalley.org) email with a few exceptions

Kaler

Cole

Katelyn McG

I ended up going to everfi.com/login

This url may also work <https://everfi.com/partners/k-12-educators/financial-education/>

Put in the user name and password noted above and it should take you there.
