

Willapa School District #160

Menlo Middle School and Willapa High School

2013 Annual Public Notice

Asbestos Hazard Emergency Response Act
(AHERA)

As result of the 2013 AHERA 3-year reinspection, the following known or assumed asbestos containing building materials (ACBMs) have been identified in the buildings of the Willapa School District #160.

Non-Friable ACBM:

- No Known Non-Friable Asbestos Used in Construction.

Friable ACBM:

- No Known Friable Asbestos found.

All ACBM listed above were found to be in good condition and are being continually maintained in accordance with all Washington State and Federal laws.

Note:

In compliance with the U.S. Environmental Protection Agency (EPA) Asbestos Hazard Emergency Act (AHERA), Willapa School District contracted with Educational Service District #113 of Tumwater, Washington to conduct the Three-Year Asbestos Reinspection of all school buildings. During the August 2013, an EPA accredited asbestos Inspector and Management Planner performed the required inspection, reassessed each category of asbestos containing building materials (ACBM) and noted any significant changes from the previous inspections. Reinspection will assist the school district in the process of safely managing each ACBM within our district.

The AHERA Reinspection Report and Management Plans are available to the general public and can be reviewed anytime during normal school hours. As required by AHERA, a designated person is available during regular business hours to answer any questions concerning ACBM in our buildings. The designated person can be contacted through the district office.
